Engineering Consultants Section

INFORMATION BULLETIN 96-12

TO: CONSULTANTS

FROM: ENGINEERING CONSULTANTS SECTION 

SUBJECT: PROJECT TEAMS

Recently we have been advised that statements may have been made by ADOT people indicating that ADOT has a preference for certain subconsultants for the Pima Freeway, Guadalupe - Warner project. The Engineering Consultants Section has held discussions with the group manager and project manager for this project and we have been unable to substantiate this information.

All consultants interested in this project are advised that ADOT does not have a preference for subconsultants used for this project nor do we have any intention of influencing who the prime consultants choose as their subconsultants. Our goal is to select the best and most qualified consultant for the project and to allow free and open competition for all consultants.
